###

An investment in the Funds is subject to investment risk, including the possible loss of principal. Pacer ETF shares may be bought and sold on an exchange through a brokerage account. Brokerage commissions and ETF expenses will reduce investment returns. There can be no assurance that an active trading market for ETF shares will be developed or maintained. The risks associated with these funds are detailed in the prospectus and could include factors such as concentration risk, equity market risk, fixed income risk, government obligations risk, high portfolio turnover risk, large and mid-capitalization investing risk, new fund risk, other investment companies risk, passive investment risk, tracking risk, trend lag risk, currency exchange rate risk, European investments risk, foreign securities risk, geographic concentration risk, forward currency contracts risk, non-diversification risk and/or special risks of exchange traded funds.
