PTNQ	Pacer Trendpilot™ 100 ETF	\$0.02408005

### About Pacer ETFs:

Pacer ETFs offers strategy driven exchange traded funds to help investors navigate turbulent markets through rules-based Indices. The Trendpilot™ Series use a trend following strategy designed to participate in the market when it is trending up, maintain some exposure during short-term market declines, and exit the market when it is trending down.

Although these are the first in-house funds, Pacer is not new to exchange traded products. As a national wholesaling organization, Pacer Financial has been integral in launching and building the business of multiple ETF and ETN providers since 2008. These partnerships have helped Pacer develop the technical knowledge and strategic relationships needed to become a fund sponsor.

**Before investing you should carefully consider the Fund's investment objectives, risks, charges, and expenses. This and other information is in the prospectus. A copy may be obtained by visiting [www.paceretfs.com](http://www.paceretfs.com) or calling 1-877-337-0500. Please read the prospectus carefully before investing.**

An investment in the Funds is subject to investment risk, including the possible loss of principal. Pacer ETF shares may be bought and sold on an exchange through a brokerage account. Brokerage commissions and ETF expenses will reduce investment returns. There can be no assurance that an active trading market for ETF shares will be developed or maintained. The risks associated with these funds are detailed in the prospectus and could include factors such as concentration risk, equity market risk, fixed income risk, government obligations risk, high portfolio turnover risk, large and mid capitalization investing risk, new fund risk, other investment companies risk, passive investment risk, tracking risk, trend lag risk, and/or special risks of exchange traded funds. Each Fund will be considered non-diversified, which means they may invest more of their assets in the securities of a single issuer or smaller number of issuers than if they were diversified funds.
