Wilshire Associates Inc., 1972

Index Calculation Agent

A global advisory company specializing in investment products, consulting services, and technology solutions. Wilshire was an early innovator of the integrated asset/liability modeling technique, as well as risk management and portfolio optimization model to help plan sponsors and institutional investors reach optimization based on their portfolio needs. In 1981 Wilshire Consulting was established to provide customized consulting solutions, assisting approximately 49 million Americans and their retirement plans, including those participating in some of the nation's largest public and corporate retirement plans. They consult on combined total assets of \$1 trillion. Wilshire broke into the alternative investment industry in the mid-1990s serving more than 150 investors with private equity solutions and gathering over \$4.3 billion in committed capital. Leveraging its strong institutional brand, Wilshire began developing investment solutions for the retail market in 2005, growing assets in that segment to more than \$146 billion across 50 leading financial intermediaries.

NASDAQ, 1971
