Pacer S&P MidCap 400 Quality FCF Aristocrats ETF

A strategy driven exchange traded fund that aims to provide capital appreciation over time by screening the S&P MidCap 400 for companies with at least 7 consecutive years of positive free cash flow and the highest free cash flow (FCF) quality score.

- **Free cash flow** is the cash remaining after a company has paid expenses, interest, taxes, and long-term investments. It can be used to buy back stock, pay dividends, or participate in mergers and acquisitions.
- **Free Cash Flow Margin** measures how much free cash flow a company generates from each dollar of revenue. A high FCF margin indicates strong profitability and financial discipline.
- **FCF Return on Invested Capital** measures how effectively a company turns its invested capital into free cash flow. A high FCF ROIC reflects operational and capital efficiency.
